

MediSapien for

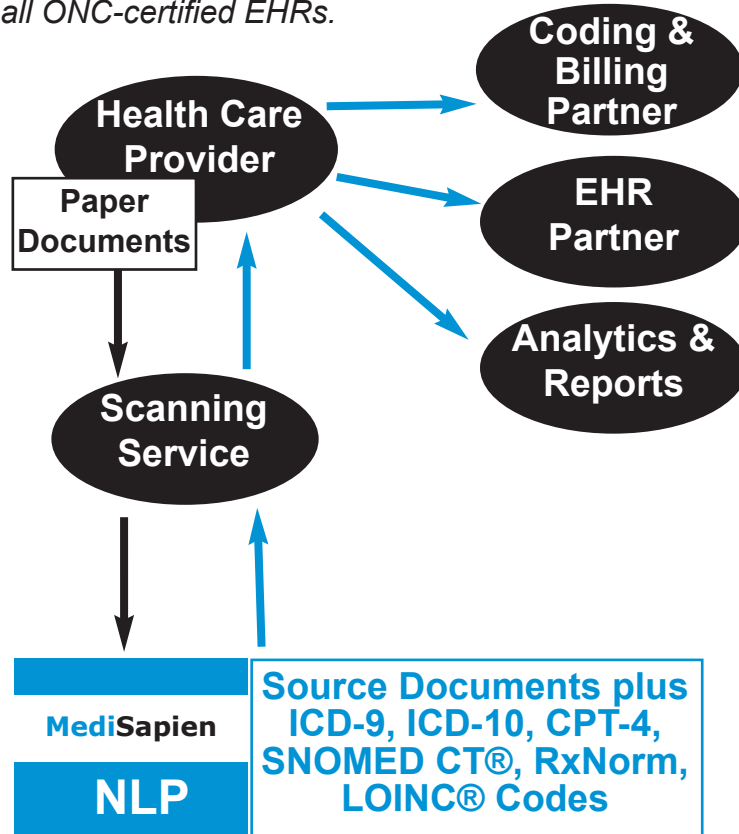

Medical Knowledge Management Platform

Document Management and Scanning Services

Expand your services with HIPAA-secure MediSapien™ meaningful data extraction for your document management clients. With MediSapien, scanned documents become “smart” documents optimized for computer-assisted coding, including ICD-10, for billing and data mining; and for seamless insertion of the narrative Health Story and structured data into all ONC-certified EHRs.

Do your clients expect meaningful data extraction from digitized paper-based medical records? *The MediSapien™ platform utilizes natural language processing and computer-assisted coding to add value to scanned clinical documentation. By converting unstructured text into structured, coded health data for EHR insertion, billing and analytics, MediSapien allows you to complement your scanning services with increased functionality.*

- MediSapien extracts structured, coded data from scanned/ OCR'd documentation for automatic insertion — along with the narrative source document — into an EHR.
- With MediSapien working behind the scenes, you can offer added value to your clients, improve your margins, and earn additional revenue.
- MediSapien is a modular platform. You can select specific features to offer your clients, including structured data capture, EHR insertion, and computer-assisted coding or full-service coding.
- As a MediSapien Service Partner, you will benefit from our preferred partner network with transcription, EHR, billing, coding, and analytics vendors. MediSapien is also a member of the Verizon Medical Data Exchange, which offers interoperability solutions to move data to EHRs, between EHRs, or to other providers.

MediSapien™ is an enterprise-class web-based platform for service partners to convert unstructured text into fully coded structured data. MediSapien accepts dictation or text from transcription vendors, legacy data and EHRs. The fully coded structured output, including ICD-10, is suitable for insertion into EHRs and facilitates interoperability. MediSapien also performs computer-assisted coding (CAC) for revenue cycle management companies, and data mining optimized for health data analytics partners. The MediSapien platform supports independent application developers.

GETTING STARTED

1. Call Kevin Ross at 800-546-5633 ext. 708 or email sales@zydoc.com
2. Schedule a webinar demonstration
3. Choose a service plan or licensing
